

Application for a grant

The purpose of the FOUNDATION ZEROWATERLOSS is to promote the sustainable use of water worldwide. Within the scope of this purpose and in order to promote it, the Foundation may, among other things, support projects which are suitable for promoting the purpose of the Foundation.

As a rule, the Foundation Council decides on the funding of projects every six months. It is free in its decision, but has to consider the financial possibilities of the Foundation. As a rule, no contributions are granted that exceed 1/3 of the total project sum. Grants are always awarded subject to the proviso that the overall financing and realisation of the project can be credibly demonstrated. The FOUNDATION ZEROWATERLOSS reserves the right to pay out the grant according to the progress of the project and/or to carry out a detailed check of the project financing.
